

# Services Overview

*Client Solutions is a leading Irish professional services company, providing a broad range of solutions in strategy, digital, technology and cloud. We help our clients maximise their performance and achieve their goals. We analyse, design, develop and deploy technology solutions to improve productivity and efficiency. Our goal is that our clients become high-performance businesses.*

## Digital Transformation Services

We design, build and support custom developed solutions using Microsoft (C#) and OpenSource (Java) technologies on all leading enterprise database platforms for on-premise, cloud and hybrid environments. We also implement and extend systems using Dynamics 365, SharePoint, Office 365, DocuSign and our own products, AIMS and RDMA (Reference Data Management Application). Client Solutions has successfully delivered software applications for many Irish and multinational organisations across a broad range of industries including Pharma, Medical Devices, Government, Finance and Telecommunications. We have delivered cloud transformation services working with our customers to decide the optimal combination of private, public or hybrid cloud architecture. Customers include Central Bank, The HSE, Musgrave, EIQA, Vodafone, Pepsi, Department of Business, Enterprise & Innovation, Permanent TSB, Bord Iascaigh Mhara and Bord Gáis.

## Enterprise Resource Planning with SAP

Client Solutions is an SAP Gold Partner and has been offering SAP software, support, system implementations and consultancy for many years. We are a value-added reseller and implementation partner for SAP S/4 HANA. We have successfully delivered SAP projects (varying in scale and size) for customers in Ireland, UK, Europe, USA and the Middle East. We have installed SAP in a wide range of sectors such as Manufacturing, Engineering and Construction, Pharmaceuticals, Distribution and Finance. We can provide you with fully managed service and support through all stages of a project from scope, blueprint, realisation, training and ongoing 24x7 support contracts. Customers include eir, Alkermes Pharma, William Connolly & Sons, Mercury Engineering, Openet Telecom, Lakelands Dairies and Carroll's Cuisine.

## Analytics, MI, Data Visualisation

We provide an end-to-end service including design, ETL and front end deployment through your tool of choice. Modelling, transforming, reporting, visualising and distributing information can create better business intelligence for all business users. We are certified MicroStrategy and Business Objects partners and certified Microsoft and Teradata partners. Customers include Vodafone, eir, VHI, Bord Gáis Energy, Davy Stockbrokers, Musgrave, Tesco Mobile and Kingspan.

## GDPR Readiness Through Data Governance

Taking a data governance approach to GDPR. Reduce the risk by applying good data governance practices through which GDPR readiness and compliance becomes a natural outcome.

## IT Service Management

Our BSM practice combines modern, mobile service desk solutions, service-aware data centre discovery, and IT operations automation with out-of-the-box ITIL® for a superior IT experience. We deliver from the cloud or your data centre. Customers include eir, Royal Borough of Greenwich, Fleetmatics, Davy Stockbrokers, United Nations, BT, TUI GmbH, and Tesco Mobile.

## Cloud Services

We deploy and manage complex BI, SAP and Digital Transformation Services in the cloud. We provide cloud transformation services, cloud discovery services and hybrid cloud architecture and managed services.
